RESEARCH

Future location of research undertaken by services currently located at RGH will be determined through consultation.

STATEWIDE SERVICES

SA Pathology, SA Pharmacy and Medical Imaging (Repat Radiology) are SA Health support services that will need to be reconfigured at receiving sites to meet the demand of transferring activity, subject to consultation.

OUTPATIENTS

Where it is appropriate and capacity allows, outpatient services will be co-located with their inpatient, surgical and procedural services. Final locations will be determined through consultation.
