Your Union, Your Voice, Your Agreement

Redeployment, Retraining and Redundancy

Under the PSA's Draft Salaried Enterprise Agreement stronger protections and processes relating to Redeployment, Retraining and Redundancy are all combined into a new stand-alone comprehensive set of clauses.

These clauses provide significant, detailed and improved protections for members and replace Appendix 1 of the current agreement and Commissioner's Determination 7.

The PSA's proposals protect members from being declared excess unnecessarily, and ensure the successful redeployment of employees declared excess who choose to stay in the Public Sector.

Members would be protected through a mandated and better resourced higher order of case management and genuine access to suitable vacancies.

Stronger protections for members affected by Redeployment, Retraining and Redundancy is just one of many improvements for members in the PSA's proposed new Enterprise Agreement.
