Your Union, Your Voice, Your Agreement

Ongoing Employment

Ongoing (permanent) employment would be enshrined for the first time as the primary form of Public Sector employment under the PSA's proposed new Enterprise Agreement.

The PSA's new clause also establishes a bridge to ongoing employment for term employees who have been employed through a merit based selection process and undertaken duties at the same classification level for two years.

Job protection and job security was one of the highest priority areas members identified as important to them during the PSA's extensive membership engagement process.

Ongoing employment is just one improvement and protection for members in the PSA's proposed new Enterprise Agreement.

The full PSA draft Salaried Enterprise Agreement as well as an overview of the PSA draft Salaried Enterprise Agreement is available to download from the PSA website:
