Your Union, Your Voice, Your Agreement

Looking After Work and Family Responsibilities

The PSA's Draft Salaried Enterprise Agreement contains strong protections for members balancing their work and family responsibilities. The proposals provide certainty for members moving between part-time and full-time employment, including retaining the right to return to full-time employment.

Members returning to work part-time from Maternity and Adoption Leave will benefit from better clarity and stronger protections.

The PSA's proposals also include provision to transfer to a safe job before their Maternity Leave if required; enhanced access to paid maternity leave for contract employees; improvements to Paid Partner Leave; and for the first time, your Enterprise Agreement would ensure proper amenities and paid time for employees who have returned to work and who are breastfeeding.

Protections for members balancing their work and family responsibilities are just one area of improvement for members contained in the PSA's proposed new Enterprise Agreement.

The full PSA draft Salaried Enterprise Agreement and an overview are available to download from the PSA website at:
